

Chris Weatherl

COO

Chris Weatherl serves as Chief Operating Officer of Rebellion Energy, LLC and brings over 15 years of domestic and international experience in Reservoir Engineering, asset development experience, and strategic leadership to the Rebellion team. He joined Rebellion in June 2016 after a 15-year career with Apache Corporation in various assignments in the US and abroad and with D2 Energy Partners as VP of Engineering. Prior to D2 Energy Partners, Chris was the Reservoir Engineering Manager for Apache's Central Region in Tulsa, where he helped manage Apache's conventional and unconventional assets in the Mid-Continent area. In addition to his functional role as Reservoir Engineering Manager, Chris concurrently led several key asset teams including the SCOOP Woodford team, where Apache successfully built and consolidated a 50,000 net acre position in under two years. Prior to that Chris was the Reservoir Engineering Manager at Apache's Khlada joint venture in Egypt and Regional Office in Buenos Aires, Argentina.

Chris holds a BS in Petroleum Engineering from the University of Tulsa, is a member of the Society of Petroleum Engineers, and sits on the Industry Advisory Board for the University of Tulsa Department of Petroleum Engineering.
