

# Jim Qualls

VICE PRESIDENT GEOLOGY

Jim Qualls joined the Rebellion management team at inception and serves as Vice President of Geology. He brings over 30 years of experience in the oil and gas industry, and has worked with numerous independent producers in prospect generation, reservoir exploitation, drilling and A&D. Geographical experience is primarily Mid Continent, specifically Oklahoma, but he has worked in several other onshore basins. He has extensive experience and training in horizontal drilling and development of highly water saturated reservoirs.

Redevelopment of mature areas is a priority for Rebellion, and has been a primary focus for Qualls since the beginning of his career. Attention to detail and the ability to bridge old school data mining, interpretation and mapping techniques with the latest digital and computer based tools are skills that he brings to the Company.

Qualls graduated with a Bachelor of Science degree in Geology from the University of Tulsa in 1986, and is currently a member of the American Association of Petroleum Geologists, Tulsa Geological Society, Oklahoma City Geological Society and Oklahoma Well Log Library. He has completed various continuing education courses through AAPG, Oklahoma Geological Survey, TGS, OCGS and Geophysical Society of Tulsa.
